CONTENTS

A. Brown *(UK)*	Introduction to the IEA Bioenergy Agreement	1
TASK V		
L. Zsuffa and **R. L. Gambles** *(Canada)*	Improvement of energy-dedicated biomass production systems	11
S. Ledin *(Sweden)*	The energy forestry production systems	17
C. P. Mitchell *(UK)*	Ecophysiology of short rotation forest crops	25
J. L. Butler *(USA)*	Dedicated agricultural and herbaceous crops	39
D. J. Royle *(UK)* and **M. Hubbes** *(Canada)*	Diseases and pests in energy crop plantations	45
L. Zsuffa, W. A. Kenney and **R. L. Gambles** *(Canada)*	Wood feedstock qualities for energy conversion and the potential for their biological improvement	55
V. Koski *(Finland)* and **D. I. Dickmann** *(USA)*	Tree ideotype	71
V. Steenackers *(Belgium)*, **R. Hall** *(USA)*, **M. Steenackers** *(Belgium)* and **P. Smets** *(Belgium)*	Exchange of genetic material	77
R. B. Hall *(USA)*, **M. E. Ostry** *(USA)* and **N. E. Nordh** *(Sweden)*	IEA joint trials: New lessons from old plantations	85
TASK VI		
C. P. Mitchell *(UK)*	Biomass supply from conventional forestry	97
M. Sabourin, G. D. Puttock and **J. Richardson** *(Canada)*	Forest management strategies for producing wood for energy from conventional forestry systems	105
J. B. Hudson and **C. P. Mitchell** *(UK)*	Integrated harvesting systems	121
B. J. Stokes *(USA)*	Harvesting small trees and forest residues	131
K. Suadicani and **N. Heding** *(Denmark)*	Wood preparation, storage, and drying	149
J. Nurmi *(Finland)*	Measurement and evaluation of wood fuel	157
W. J. Dyck and **C. A. Bow** *(New Zealand)*	Environmental impacts of harvesting	173

H. Knutell *(Sweden)*	Economics of wood energy supply systems	193
TASK VII		
D. J. Stevens *(USA)*	Biomass conversion: An overview of the IEA Bioenergy Agreement Task VII	213
J. N. Saddler *(Canada)*	Biotechnology for the conversion of lignocellulosics	229
J. E. Hustad and **O. K. Sønju** (*Norway*)	Biomass combustion in IEA countries	239
R. M. Frings *(New Zealand)*, **I. R. Hunter** *(UK)* and **K. L. Mackie** *(New Zealand)*	Environmental requirements in thermochemical and biochemical conversion of biomass	263
Y. Solantausta *(Finland)*, **D. Beckman** *(Canada)*, **A. V. Bridgwater** *(UK)*, **J. P. Diebold** *(USA)* and **D. C. Elliott** *(USA)*	Assessment of liquefaction and pyrolysis systems	279
S. P. Babu and **T. P. Whaley** *(USA)*	IEA Biomass Thermal Gasification Project	299
A. Bridgwater *(UK)*	Thermochemical and biochemical biomass conversion activities	307
P. S. Lawson *(UK)*	Municipal solid waste conversion to energy	319
C. Nielsen *(Denmark)*	Conversion of straw and similar agricultural wastes	331
T. A. Milne, H. L. Chum, F. Agblevor and **D. K. Johnson** *(USA)*	Standardized analytical methods	341
